Payment methods:

1. Bank/wire transfer (no fee)
2. Credit card payment (3.5% fee)
3. PayPal (5% fee)

Payment method is discussed upon each order.

(All prices are VAT excl.)

1 .General information:

MaticBox is a next-generation DIN-rail enclosure system designed to remove the limitations of traditional housing solutions.

Engineered for fast assembly and efficient manufacturing, MaticBox helps **reduce production time and lowers overall product cost (cost of goods sold) by eliminating unnecessary screws, tools, and assembly steps.**

A wide range of enclosure variants is available, all fully compliant with **IP40 protection**, ensuring reliable performance across different configurations.

You can explore all product features and system details on our website at maticbox.eu, or watch a short 4-minute [overview video](#) to see the system in action.

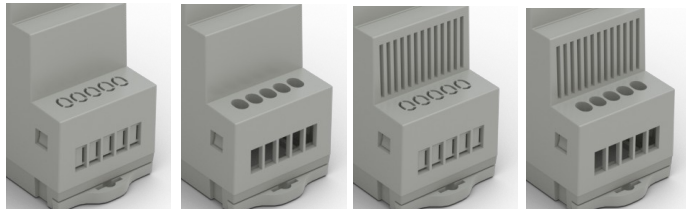

For engineering and design support, we provide [detailed technical resources](#) for every size, including full dimensional PDF drawings and STEP files. These allow designers to directly import and verify compatibility within their CAD systems, ensuring fast and accurate integration into their projects.

100% designed and manufactured in the European Union, MaticBox delivers excellent quality, scalable production, and long-term supply stability for demanding industrial applications.

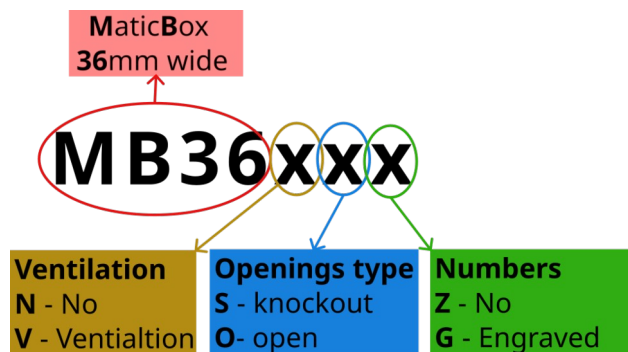

2 .MaticBox DIN series:

MaticBox36 variations:

MB36NSZ MB36NOZ MB36VSZ MB36VOZ

MB36NSG MB36NOG MB36VSG MB36VOG

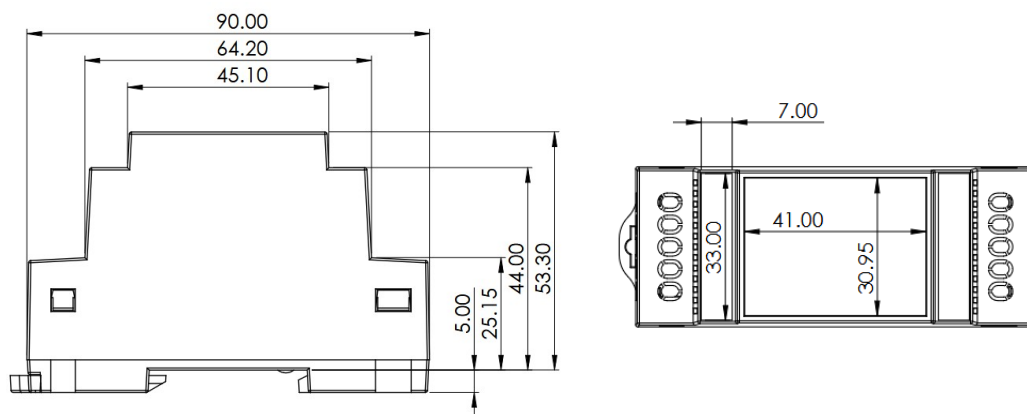

Version/SKU	1+ pcs	10+pcs	50+ pcs.	100+ pcs.	Full box (184 pcs.)
MB36NSZ	1.89€	1.78€	1.66€	1.55€	1.42€
MB36NOZ					
MB36VSZ					
MB36VOZ					
MB36NSG	2.00€	1.88€	1.76€	1.64€	1.50€
MB36NOG					
MB36VSG					
MB36VOG					

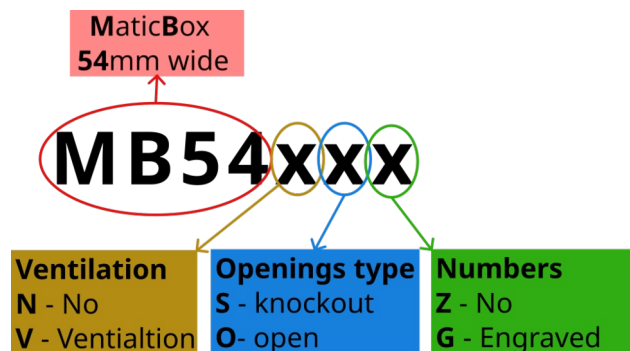

For larger quantities additional discount is available upon request.

3. MaticBox Ecosystem:

This is the 2026 price list. If there is a newer version available, please check and update with the latest products.

Extension buttons

We offer a variety of button extensions, fully customized according to your requirements. They can be designed with custom markings on the top surface.

When used for rotary trimmers, the indicator includes a recessed slot, allowing easy and precise adjustment with a screwdriver to the desired setting.

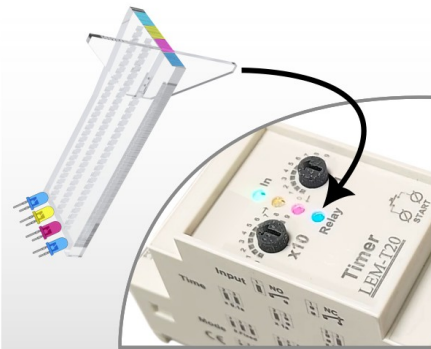

In addition to the standard black version, we also offer a range of color options.

Light pipes

We offer custom light pipe solutions tailored to your products. They are ideal for guiding light indicators to the top cover of the MaticBox.

Light pipes enable the use of SMD LEDs, which are significantly more cost-effective than traditional through-hole components, helping reduce the overall product cost.

There is no longer a need to design complex constructions or use additional PCBs to bring LEDs to the top cover.

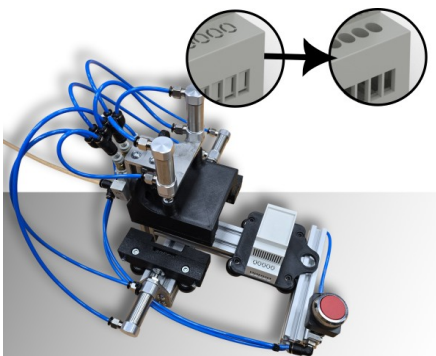

Pneumatic punch press

We offer universal pneumatic presses that allow you to quickly and easily create openings in MaticBox enclosures.

They are especially useful for medium production runs where not all openings need to be used, but only selected ones. The press is universal, allowing you to choose which terminal openings to activate and easily adjust them for future production batches.

Automate your production and reduce overall product cost.

As these products are often developed as custom solutions, please contact us for more information.

Marketing and Technical Resources for MaticBox

We are pleased to provide the following support materials upon request:

- Full datasheets for each product
- High-resolution raw images for use on your website
- Pre-designed marketing collages, if preferred

Packaging Information

MaticBox enclosures are delivered in **bulk cartons without individual packaging**. Products are stacked and arranged directly inside the shipping carton to maximize packing efficiency and minimize shipping costs.

The carton capacity varies depending on the enclosure model (e.g. **184 units per carton for MB36xxx**). Orders are packed in complete or partial cartons according to the ordered quantity.

For orders contact us at info@maticbox.eu or visit <https://maticbox.eu>
